

Local Plan 2036

ISSUES AND OPTIONS CONSULTATION

We would like to hear your views on the issues and options for planning North Somerset over the next 20 years.

New homes and jobs will be needed, and it is essential that infrastructure such as roads, schools, parks and health services are provided. Two new villages north of Banwell and Langford and extensions to Nailsea and Backwell are proposed. Brownfield land, especially in Weston, will be used for new houses and apartments. Sites for a further 1,000 houses will also need to be found elsewhere in North Somerset.
